

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

State Treasurer's Report

STATE OF OREGON, TREASURY DEPARTMENT, {
SALEM, October 1, 1916. }

To the Legislative Assembly of the State of Oregon:

As required by law, I have the honor to submit herewith my official report of the transactions of this department for the biennial term commencing October 1, 1914, and ending September 30, 1916, showing in detail the receipts and disbursements made through this department; the balances remaining in the various funds; the amount of taxes received and due from the several counties; itemized list of investments made by this department on account of the segregated and industrial accident funds; list of estates from which inheritance taxes were collected; securities deposited in accordance with statutory requirements by banks, title, trust and express companies; and a complete abstract of all notes now held by the State on account of the Irreducible School, Agricultural College, University and various trust funds, as well as all other matters pertaining to the State finances and the operations of the Treasury Department.

I also submit herein, for your consideration, a few suggestions regarding the amendment of existing laws, which we believe would be of benefit to the State and materially assist this department in the economical administration of the subject matters embodied in said laws.

The receipts and disbursements through this office during the last two years have been the largest in the record of the State, being briefly summarized as follows:

Cash on hand October 1, 1914	\$ 567,917.67
Receipts for the two years ending September 30, 1916.....	12,044,354.73
Total	\$12,612,272.40
Disbursements for the two years ending September 30, 1916	11,473,469.60
Cash on hand September 30, 1916.....	\$ 1,138,802.80

With no State debt and this large surplus in the Treasury, the financial affairs of the State are in splendid condition, perhaps better than at any other time in its history.

We are pleased to state that the legislation enacted upon our recommendation, by the Legislature, at the session of 1915, relative to merging with the general funds a large number of special funds, has been very satisfactory, enabling us to pay all warrants upon presentation and not

requiring, as in the past, the endorsement of warrants upon the general fund as "not paid for want of funds" and the consequent payment of a large amount of interest. These mergers were made by transfers under date of May 31, 1915, and are fully set out under the heading of each fund.

CANCELLATION OF OUTSTANDING WARRANTS.

As directed by Chapter 137, Laws of 1915, we have canceled upon our books those warrants drawn upon the General and the State Scalp Bounty and Bounty funds, which were presented and endorsed and upon which interest ceased more than seven years prior to July 1, 1915, and which were not presented for payment. An itemized list of said warrants is shown in this report.

STATE TAXES.

We are pleased to report that all counties have paid the first half of this year's State tax, leaving none delinquent at this time. During the two years ending September 30, 1916, we collected from counties for State taxes of 1914-15-16, \$5,733,040.26, leaving outstanding at this time on account of 1916 taxes the sum of \$1,269,300.74.

EDUCATIONAL FUNDS.

Practically the entire principal of the Irreducible School, the Agricultural College and the University funds are kept invested in notes secured by first mortgages on real property, and the interest on these loans is well paid up, there being but a small per cent on which interest is overdue.

During the last two years twenty-five notes, aggregating the sum of \$38,350.00, with the mortgages given as security for payment of same, have been turned over to the attorneys for the State Land Board for collection under foreclosure proceedings.

The income from investments of the Irreducible School fund, apportioned and paid to the several counties for the years 1915 and 1916, was \$729,726.96.

For the two years ending September 30, 1916, the income from the investments of the Agricultural College fund was \$22,517.21, and from the University fund \$12,354.23.

During the last year all the bond investments of the Irreducible School fund have been disposed of and replaced by notes secured by first mortgages on farm lands.

We would respectfully refer for your consideration the enactment of new legislation, authorizing the State Land Board to reduce the rate of interest and the security required for the making of loans from the Irreducible School and trust funds of the State, as the passage of national and state rural credit measures will change the rate of interest on farm loans, so that it will be impossible to loan the State educational and trust funds under the present law, which requires the payment of six per cent per annum interest, and also that the security shall be land worth at least three times the amount of loan, without considering improvements, buildings, etc.

The following is a comparative statement of the educational funds:

STATE TREASURER CUSTODIAN OF NOTES AND MORTGAGES.

Under a proceeding in mandamus, brought by relators Oswald West, Governor, and Ben W. Olcott, Secretary of State, to compel me, as State Treasurer, to deliver the notes and mortgages received from loans of the educational funds

of the State, to the clerk of the State Land Board, a peremptory writ of mandamus to surrender said notes and mortgages was granted by Wm. Galloway, judge of the circuit court, from which I appealed to the supreme court, where the judgment of the circuit court was reversed, the writ dismissed, and the State Treasurer declared to be the legal custodian of all of said notes and mortgages. 74 Or. page 268.

SEGREGATED ACCIDENT FUND.

Under the Compensation Act it is the duty of the State Treasurer to invest the moneys in the Segregated Accident fund in the class of securities authorized for the investment of savings deposits in State banks. We are very much pleased to report that we have succeeded in securing, at par or a little better, high-grade municipal and school district bonds, averaging 5 6-10 per cent interest per annum, for almost the entire fund now on hand, we having bonds of the face value of \$501,930.00, secured at a cost of \$501,767.52. The present market value of these bonds is at least \$20,000.00 more than the face value. We have in this fund, on this date, \$16,447.57 cash, in addition to the above bonds, which are enumerated under heading "Statement of Securities Belonging to Segregated Accident Fund."

INDUSTRIAL ACCIDENT FUND.

We have in this fund \$182,766.87, of which \$62,078.00 is invested in municipal and school district bonds, and \$120,688.87 is in cash.

DEPOSITS OF STATE FUNDS AND INCOME THEREFROM.

Under the State Depository Act of 1907, the banks in which the State Treasurer deposits the funds of the State, pay two per cent interest on daily balances, and from this source the State received, during the two years from October 1, 1914, to September 30, 1916, the sum of \$47,262.18, against the \$34,824.35 for the previous two years. This revenue (which under the old law was regarded as a personal perquisite of the State Treasurer) not only was sufficient to pay the entire expenses of the treasury department, including the salary of the State Treasurer, but also to place in the general fund a balance of over \$12,500.00.

It has been the policy of this department to secure for the State all the revenue possible from this source, and, at the

same time, to keep it distributed in a large number of banks, located in all parts of the State, thus placing the money not demanded for immediate use into circulation in the communities from whence it was received.

It has been impossible to appoint as State depositories all banks that have made application to become such, but we have appointed, wherever it was practicable, two or more depositories in each county, having at the present time eighty banks acting as State depositories, with deposits of \$1,130,921.58, for which we hold collateral securities in the sum of \$1,830,000.00.

INHERITANCE TAX.

The receipts from taxes on inheritances for the two years ending September 30, 1916, were \$161,401.95.

In the administration of the Inheritance Tax Law we have endeavored to secure for the State all taxes due and collectible under its provisions, demanding that the true value be placed upon all property coming within the jurisdiction of this law; that taxes be paid upon transfers of stock in corporations of this State belonging to foreign estates; and also upon transfers of property, either real or personal, made in contemplation of death. In the performance of this work we have had to appear in court in many cases, presenting our claims and submitting arguments in support of same, with the result, we are pleased to state, of having our contentions upheld in every instance. We have collected quite a large sum upon increases in valuation and the addition of unappraised property secured through compromise and stipulation between this office and the representatives of estates. Through these appearances and stipulations we have increased the sum we would otherwise have received by a little over \$11,000.00. We believe the policy of the department in the administration of this law has been very satisfactory to the county courts of the State, as well as to attorneys representing estates of decedents, and has brought about a much better understanding of the law, and its recognition as a just and proper source of revenue for the State.

A federal inheritance tax law has been enacted by Congress, which will require the payment of an additional inheritance tax to the United States Collector of Internal Revenue on estates of \$60,000.00 or more. We trust that in the administration of these laws there will arise no question of jurisdiction between federal and state collectors.

RECOMMENDATIONS.

When cases have been heard in court, the judge and attorneys have in a number of instances suggested slight amendments in the law, whereby the true meaning and intent may be determined, and we hereby present for your consideration some amendments that we believe will protect the State and remove doubts as to the meaning and true intent of the law.

We would recommend that Sections 1191 and 1192 be amended by including in the list of beneficiaries, "Associations." We would further recommend that Section 1192 be amended by striking out that part whereby no estate is taxable when going to a direct heir, unless it is of the value of \$10,000.00 or more, or to collateral heirs of the value of \$5,000.00, thereby providing for the payment of an inheritance tax upon all property received by said heir over and above the \$5,000.00 and \$2,000.00 exemption now allowed, irrespective of appraised valuation of estate.

Under a decision of the supreme court of California, under a law similar to ours, it is held that any allowance made by the court to a widow for her support for one year, no matter how large, the amount is not subject to the payment of an inheritance tax, it not passing to her by will or statutes of inheritance, but by order of the court. In a couple of instances in this State, courts have made large allowances, between \$10,000.00 and \$20,000.00, which under the above cited decision allows the widow not only the statutory exemption of \$5,000.00, but also the further exemption of the large allowance. We would recommend for your consideration the advisability of amending our statute to cover this point, as otherwise its practice and approval will materially reduce the revenue obtained from this source.

ACCOUNTS BETWEEN STATE AND COUNTIES.

There still remains unpaid a charge against Clatsop County for maintenance of insane committed from that county under the old law, amounting to the sum of \$763.35, which said county refuses to pay, claiming that it was unable to collect the same from those whom the committing court found responsible and by order directed should make payment to the county treasurer.

There also remains unpaid upon our books, charges against Multnomah and Wheeler counties for maintenance of inmates at the State Institution for Feeble-Minded, committed under the old law from the said counties, amounting to \$9,533.88

due from Multnomah county, and \$28.66 due from Wheeler county. The county commissioners of Multnomah county have refused to pay said charge until the State shall appropriate and pay Multnomah county for a large amount expended, it is claimed, on account of non-resident paupers.

We would recommend that some action be taken, either to secure the payment of these charges or to authorize the cancellation of same upon our books.

There is due and unpaid by fifteen counties the sum of \$4,881.80 on account of charges for one-third of the expenses incurred by the State Forestry department, as provided by Chapter 278, General Laws of 1911.

STATE SEALER OF WEIGHTS AND MEASURES.

As State Sealer of Weights and Measures, acting under the amendments to the Weights and Measures Law made by the Legislature at the session of 1915, I divided the State into four districts and appointed four district sealers, who immediately thereafter entered upon their duties, achieving results very satisfactory to both dealers and consumers. A detailed statement of the work performed is contained herein under report of Deputy State Sealer of Weights and Measures.

Your special attention is directed to said report and the recommendations submitted by the deputy sealer of weights and measures.

CONCLUSION.

In 1915 and this year, representatives of the bonding companies made complete and thorough examination of this department, auditing all funds, accounts, receipts, disbursements, securities, etc., reporting after each examination our office in excellent shape and exceptionally well conducted by efficient help.

In conclusion we would most respectfully direct your attention to the statements, tables and recommendations in this report, in which we have endeavored to set forth in clear and concise manner all matters relating to revenue, disbursements, loans, securities, collections, procedure and matters of interest to the State and its legislators.

Respectfully submitted,

THOS. B. KAY,
State Treasurer.

STATEMENT OF THE APPORTIONMENT OF STATE TAXES AMONG THE SEVERAL COUNTIES OF THE STATE FOR THE YEAR 1915

First Column—Names of counties.

Second Column—Percentage that the equalized value of the taxable property in each county is of the total value of the taxable property in the State as so equalized, which percentage is also the proportion of the State taxes to be paid by the several counties, as provided in Sections 3641 and 3644 of Lord's Oregon Laws, as amended by Sections 28 and 31 of Chapter 193, Laws of 1913.

Third Column—The total amount of revenue to be raised for the fiscal year ending December 31, 1915, for general State purposes, not provided for by a special tax, fully authorized by law, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State Treasury by each of said counties in the manner provided by law, being the resulting amount apportioned to each of said counties by application of the respective percentage or proportion shown in the second column hereof to the total amount of \$2,188,911.06.

Fourth Column—Amount to be raised for the "Monmouth Normal School Fund," to be levied and collected as other State taxes are levied and collected, as provided by Chapter 2, General Laws of Oregon of 1911, being at the rate of one-twenty-fifth of a mill on the dollar upon all the taxable property of the State, and amounting to \$37,296.52.

Fifth Column—Amount to be raised for the "State Road Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 13 of Chapter 339, General Laws of Oregon of 1913, being at the rate of one-fourth of a mill on the dollar on all taxable property of the State, and amounting to \$233,103.27.

Sixth Column—Amount to be raised for the "University of Oregon Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 2 of Chapter 132, General Laws of Oregon of 1913, being at the rate of three-tenths of a mill on the dollar on all the taxable property of the State, and amounting to \$279,723.92.

Seventh Column—Amount to be raised for the "Oregon State Agricultural College Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 2 of Chapter 136, General Laws of Oregon of 1913, being at the rate of four-tenths of a mill on the dollar on all the taxable property of the State, and amounting to \$372,965.23.

Eighth Column—The total amount of revenue to be raised for the fiscal year ending December 31, 1915, including the amount for general State purposes, the amount for the "Monmouth Normal School Fund," the amount for the "State Road Fund," the amount for the "University of Oregon Fund," and the amount for the "Oregon State Agricultural College Fund"; said total amount being \$3,112,000.00, apportioned among the several counties, to be paid to the State Treasurer in the respective amounts specified.

STATEMENT OF THE APPORTIONMENT OF STATE TAXES AMONG THE SEVERAL COUNTIES OF THE STATE FOR THE YEAR 1916

The following table shows:

First Column—Names of counties.

Second Column—Percentage that the equalized value of the taxable property in each county is of the total value of the taxable property in the State as so equalized, which percentage is also the proportion of the State taxes to be paid by the several counties, as provided in Sections 3641 and 3644 of Lord's Oregon Laws, as amended by Sections 28 and 31 of Chapter 193, Laws of 1913.

Third Column—The total amount of revenue to be raised for the fiscal year ending December 31, 1916, for general State purposes, not provided for by a special tax, fully authorized by law, and apportioned to each county of the State of Oregon, to be levied and collected and paid into the State Treasury by each of said counties in the manner provided by law, being the resulting amount apportioned to each of said counties by application of the respective percentage or proportion shown in the second column hereof to the total amount of \$1,624,849.92.

Fourth Column—Amount to be raised for the "Monmouth Normal School Fund," to be levied and collected as other State taxes are levied and collected, as provided by Chapter 2, General Laws of Oregon of 1911, being at the rate of one-twenty-fifth of a mill on the dollar upon all the taxable property of the State, and amounting to \$37,379.80.

Fifth Column—Amount to be raised for the "State Road Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 13 of Chapter 339, General Laws of Oregon of 1913, being at the rate of one-fourth of a mill on the dollar on all taxable property of the State, and amounting to \$233,623.76.

Sixth Column—Amount to be raised for the "University of Oregon Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 2 of Chapter 132, General Laws of Oregon of 1913, being at the rate of three-tenths of a mill on the dollar on all the taxable property of the State, and amounting to \$280,348.51.

Seventh Column—Amount to be raised for the "Oregon State Agricultural College Fund," to be levied and collected as other State taxes are levied and collected, as provided by Section 2 of Chapter 136, General Laws of Oregon of 1913, being at the rate of four-tenths of a mill on the dollar on all the taxable property of the State, and amounting to \$373,798.01.

Eighth Column—The total amount of revenue to be raised for the fiscal year ending December 31, 1916, including the amount for general State purposes, the amount for the "Monmouth Normal School Fund," the amount for the "State Road Fund," the amount for the "University of Oregon Fund," and the amount for the "Oregon State Agricultural College Fund"; said total amount being \$2,550,000.00, apportioned among the several counties, to be paid to the State Treasurer in the respective amounts specified.

COMMON SCHOOL FUND, PRINCIPAL

This fund is derived from the following sources:

The proceeds of the sale of the sixteenth and the thirty-sixth sections of every township in the State, or of any land selected in lieu thereof.

The proceeds of the sale of the five hundred thousand acres of land to which the State is entitled by the provisions of an Act of Congress, approved September 4, 1841.

All lands selected for Capitol building purposes, under an Act of Congress, approved February 14, 1859.

The proceeds of the sale of tide and overflow land within the State.

All the moneys and clear proceeds of all property which may accrue to the State by escheat or forfeiture.

The proceeds of all gifts, devises and bequests made by any person to the State for common school purposes.

The proceeds of all property granted to the State when the purpose of such grant shall not be stated.

Fines imposed for violations of laws regulating practice of medicine.

Fees of itinerant venders.

Sundry fees of the Clerk of the State Land Board.

All moneys which may be paid for exemption from military duty.

The fund is invested in first mortgage loans on real property within the State, and in bonds lawfully issued by school districts within the State. The income from such investments is used to aid in the support of the public schools.

Weights and Measures

Detail Statement

The original Act providing for the inspection of weights and measures in the State of Oregon was passed by the 1913 Legislature and became operative June third following. The 1915 Legislative Assembly, acting upon recommendations contained in the first biennial report of the office, passed two separate Acts (Chaps. 161 and 162, Gen. Laws, 1915) amending the previous Act of 1913, thereby centralizing the responsibility for enforcement of the laws, and increasing the efficiency of administration.

Under these 1915 laws, each county has received its proportionate share of the work; various problems of interest peculiar to the particular localities and to the State at large have been taken up, and while certain improvements will be recommended in this report, in general, the results accomplished have been very satisfactory, and for every dollar expended there has been an adequate return.

That the public throughout the State might obtain a wider knowledge of these laws, and a better understanding of their beneficial features, a pamphlet of general information in relation thereto was compiled and distributed.

This report deals principally with the work accomplished after the new law became operative, from May 22, 1915, to October 1, 1916, although such inspections as were made previous to this time, or from September 30, 1914, to May 22, 1915, are included and made a part of this report.

The primary work of the office was the division of the State into four weight and measure districts, as required by Section 5, Chapter 162; the apportionment of the *pro rata* expense per county according to the population; the appointment of the district sealers, and a general reorganization of the method of law enforcement made necessary by the abolishment of the county sealer system, and with the object in view of promoting efficiency and reducing the expense of operation.

SPECIFICATIONS

One of the principal results accomplished during this biennium was the promulgation of specifications designed to prevent the use of inferior, inaccurate and faultily constructed apparatus; to protect the public, and enable the merchants to procure properly constructed and reliable equipment. This result was achieved without unwarranted expense to the business public by making certain sections only, of the specifica-

tions apply to the equipment in use at the time of promulgation, while all new equipment brought within the State after the specifications became effective was required to comply with them in their entirety.

Scales inspected	21,221	
Scales found accurate and sealed	15,556	
Scales inaccurate at time of inspection		5,665
Scales adjusted, corrected and sealed	2,637	
Scales condemned for repairs, or permanently	2,776	
Scales passed for further inspection	252	
Total		5,665

WEIGHTS

Weights inspected	19,597
Weights found accurate	18,656
Weights condemned	941

Referring to the preceding statement, you will note that out of a total of 21,221 scales tested, about one-fourth of them, or 26.6 per cent to be more exact, were in such condition as to cause the delivery of over or under weights at the time of inspection. As usual, the majority of the weights tested were found to be accurate, condemnations amounting to less than 5 per cent of the whole. Relative to weight tests, it is well to consider that the error frequently multiplies, and this office has in its possession counterpoise weights which, when used, caused errors as great as forty pounds to each weighing.

Below is given a summary of the measures inspected, both linear and liquid, together with the tests of the automatic oil and gasoline pumps.

MEASURES

Linear measures (counter tacks, etc.) inspected	1,803	
Linear measures found accurate	1,708	
Linear measures inaccurate at time of inspection		95
Linear measures adjusted, or corrected and sealed	51	
Linear measures condemned	44	
Liquid measures inspected	3,352	
Liquid measures accurate and sealed	3,110	
Liquid measures condemned		242
Pumps (gasoline, oil, etc.) inspected	1,548	
Pumps found accurate and sealed	1,235	
Pumps inaccurate at time of inspection		313
Pumps adjusted or corrected by sealer	193	
Pumps ordered repaired	101	
Pumps condemned	19	

In addition to the measures tested as noted above, inspections have been made of sand and gravel wagons, oil wagons, tanks, hop baskets, and various devices commonly used as measures in gauging the quantity of the commodity contained therein, and where found necessary, precautions have been taken to insure the delivery at all times of full weight or measure.

MISCELLANEOUS INSPECTIONS

Milk bottles inspected	84,154
Berry boxes inspected	100,000
Automatic cheese cutters inspected	23
Taximeters tested*	35
* City of Portland.	
Taximeters sealed	29
Taximeters condemned for repairs	6
Gravel and crushed rock carriers measured	87
Wood measured (specific requests), cords	14,060

In addition, the list of commodity inspections contains the following: Flour, bread, milk, sugar, coffee, cranberries, hams, turkeys, ice, coal, hay, etc., etc., together with numerous miscellaneous articles, the inspections being made to verify the correctness of the amounts delivered, and to protect the public wherever discrepancies were discovered.

INSTITUTIONS

The following report relates to the inspection of the equipment in use at the State institutions, a copy of which was filed with the secretary of the State Board of Control:

OREGON STATE HOSPITAL

Butcher Shop.—One butcher's overhead track scale in good order; one Fairbanks portable platform scale and weights condemned for repairs.

Hoghouse.—One Fairbanks portable platform scale and weights, scale in good order; confiscated one 100 pound weight.

Commissary.—One Fairbanks portable platform scale and weight, scale condemned for repairs—screw out of poise; one counter platform scale and weights in good order.

Farm.—One Fairbanks wagon scale and weights in good order.

OREGON STATE HOSPITAL FARM

Garage.—One Bowser gasoline pump in good order.

Commissary.—One Victor portable platform scale and weights, scale condemned for repairs.

Granary.—One Fairbanks portable platform scale and weights in good order; one beam scale in good order; one Fairbanks wagon scale and weights, scale condemned for repairs.

SCHOOL FOR THE DEAF

Commissary.—One Howe portable platform scale and weights, scale adjusted and left in good order.

TUBERCULAR HOSPITAL

Commissary.—One Fairbanks counter platform scale and weights in good order.

Office.—One postal scale in good order; one spring scale in office condemned.

Receiving Room.—One portable platform physicians' scale and weights in good order.

Cow Barn.—One Fairbanks counter platform scale and weights in good order.

Kitchen.—One family scale condemned.

I would recommend the purchase and installation of a portable (square) platform scale of 600 pounds capacity in the barn. Scale in use too small and not intended for the purpose used.

FEEBLE-MINDED INSTITUTION

Commissary.—One Fairbanks portable scale and weights, scale condemned for repairs.

Meat Room.—One Howe beam scale condemned for repairs.

Kitchen.—One even balance scale in good order, confiscated two weights.

Receiving Room.—One Fairbanks portable platform physicians' scale and weights adjusted and left in good order.

SCHOOL FOR THE BLIND

Commissary.—One Buffalo portable platform scale and weights in good order.

STATE PENITENTIARY

Flax Room.—One Fairbanks portable platform scale and weights in good order.

Refrigerator.—One butcher overhead track scale in good order.

Commissary.—One Howe counter platform scale in good order.

Vegetable Room.—One Fairbanks portable platform scale and weights condemned.

Butcher Shop.—One Fairbanks portable platform scale and weights condemned.

Farm.—One wagon scale in good order.

I would recommend the purchase of a portable (square) platform scale for the barn, and good type of scale suitable for the commissary. Scale in use in commissary is of very low sensibility.

GIRLS' TRAINING SCHOOL

Kitchen.—One family spring scale inaccurate and condemned.

Receiving.—One Fairbanks portable platform physicians' scale and weights in good order.

Stables.—One spring balance scale in good order.

Vegetable Room.—One spring balance scale in good order.

I would recommend the purchase of a portable (square) platform scale of 600 pounds capacity in stables, and suitable scales in kitchen and vegetable room.

TRAINING SCHOOL FOR BOYS

Commissary.—One Fairbanks portable platform scale and weights condemned for repairs. Confiscated one 100-pound weight. This scale was off five and one-half pounds in 100 pounds. One counter platform scale condemned for repairs.

In general, would suggest that all commodities be carefully weighed or measured on receipt, and shortages reported to the State Office of Weights and Measures.

SPECIAL INVESTIGATIONS

Milk Bottles.—Shortly after the specifications were promulgated, a comprehensive investigation of the milk bottles in use was completed. Portland being the distributing center, the major portion of the tests were made there, carload lots being examined before acceptance, as well as bottles in use at the various creameries. The manufacturers' agents, representing the original shippers were visited, the specifications governing the manufacture and sale of bottles called to their attention, and notification given that all future shipments must comply in every particular with the specifications, the requirements being that all bottles must hereafter have the capacity permanently marked in or on the side of the bottle, and the name, initials or trade mark of the manufacturer thereof on the side or bottom, thereby enabling the inspector to determine the responsible party where inaccurate bottles are shipped into the State and used.

During this investigation, some 66,000 bottles were inspected, and about one-half of that number were tested by comparison with a standard graduate. In addition to milk bottles, about 1,000 "packers" (a glass receptacle used for the sale and delivery of fruit juices) were inspected and tested.

This investigation insured to consumers the delivery of milk in accurate measures, and protected the creamerymen, and dairymen, by excluding from the Oregon market inaccurate and improperly constructed bottles. As a rule the investigation disclosed that the majority of the bottles tested were correct within the tolerance, and while numerous discrepancies were discovered, the conditions on the whole as regards the delivery of milk were reasonably satisfactory.

Berries; Berry Boxes.—The berry box law as passed by the last Legislature became effective November 22, 1915, the dealers and box manufacturers were immediately notified, and enforcement was initiated with the appearance of the first berries on the market. Some trouble resulted, principally due to poor packing, and shipments of California berries in other than standard boxes. That compliance with the law might be

obtained without injuring the Oregon producers and merchants, a meeting was called with the commission men, and the chief berry growing districts of the State were visited. Several thousand copies of the law were distributed to interested parties; the press of the State notified of the action taken; and some 100,000 boxes of berries were examined. The State Office ruled that the standard boxes of thirty-three and six-tenths cubic inches (dry pint), and sixty-seven and two-tenths cubic inches (dry quart) must be used; that berries in other than standard boxes should be sold by weight; that the berries must be well packed in the box, and the container level full. The result of the passage of the berry law has, on the whole, been most beneficial, the multiplicity of boxes heretofore in use has been eliminated, the pack increased from 15 to 20 per cent, and purchasers enabled to buy a known quantity. The State Office feels indebted to the dealers, both wholesale and retail, the growers associations, and to the press, for the assistance given in the enforcement of this law.

Bread.—Taking into consideration that bread is an essential and a necessity, and that the public is vitally interested in its manufacture and sale, and further, that all the ingredients entering into the composition thereof are contracted for in specific amounts, and at a specific price, and that the bakers are advised through the market quotations of changes in these prices, the State Office of Weights and Measures believes that the public, in turn, are also entitled to be able to purchase in specific amounts, and has decided, after investigation, to recommend to the Legislative Assembly a *net weight* bread law substantially as follows:

That the net weight of the loaf, when baked, be labeled (sticker label) thereon; that a tolerance of one-half ounce avoirdupois, both above and below the labeled weight be allowed; that between ten and twenty-five loaves be weighed to establish an overage or shortage; that this weight be taken within one to six hours after baking, and that a penalty be provided for failure to correctly label the loaves.

In order that this office might be further advised, a copy of the suggested law was forwarded to Commissioner Joseph Hartigan, of the New York Bureau of Weights and Measures, and the following letter was received: "You are advised that in the state and city of New York bread must be sold by weight; that on each unwrapped loaf of bread, a label shall be attached upon which shall appear a written representation of its true weight. On wrapped bread, likewise, a written representation as to its true weight; also that the customer shall, if it is desired, to have weighed in his presence on a scale, such bread. The tolerance under the said bread regulation, of

10 per cent, we have found to be too generous. I think your proposed one-half ounce tolerance both above and below the marked weight is better."

Upon corresponding with the National Bureau of Standards, and quoting the suggested law, the Honorable S. W. Stratton, Director of the Bureau, in his discussion of bread laws calls attention to the different types, but favors the principle of law suggested, with the added provision that a "standard" loaf be provided for, which need not be labeled, thereby giving the bakers an incentive to work their product upward and toward the standard weight.

Arguments have been advanced by some against the proposed law to the effect that it was practically impossible to bake uniform loaves; that the weight would vary, and that the results obtained from one "batch" would differ from another made in identically the same manner. The contention is also advanced that labeling would increase the cost of manufacture, and, further, that legislation would not benefit the public. The office holds that it is possible to bake bread of a certain weight within a tolerance, and that the one-half ounce suggested above and below the marked weight, is more than enough to cover any discrepancies which might occur, submitting as proof the fact that all bread weighed of a particular brand during the investigation was found to be approximately the same.

The office further contends that labeling the weight of the loaves would cause very little, if any, additional expense, citing that the majority of the larger bakeries, and certain of the smaller ones, now label their bread, and the additional cost of printing the weight thereon would be negligible. It is admitted that under certain circumstances it might become necessary to have an additional stock of labels of differently marked weights on hand, as for instance, labels marked twelve, thirteen and fourteen ounces, in order that fluctuations in the cost of the ingredients and consequent change in the size of the loaf, might be taken care of without loss of time, but the additional amount invested in carrying this stock is of very minor importance.

This office also advances the opinion that it would prove of benefit to the public to have each loaf marked as to its weight, thereby promoting competition between the bakers and informing the consumer of the actual weight received. This would make direct comparisons as between brands possible and enable the purchaser to buy wisely and to the best advantage. We find that the majority of the merchants handling bakers' products favor legislation requiring the uniform marking of the *net weight* on bread, and that, generally speaking, the country, or outside baker, has no objections to such a law.

The recommendations embodied in the preceding statement are the result of an investigation of the methods of sale and manufacture of bread during which thousands of loaves were weighed, various bakers consulted and data procured from many sources bearing upon the question at hand.

The original inspection of bread weights disclosed the fact that the five-cent loaves varied in weight from ten and a half to fifteen ounces, with a general average of about thirteen ounces; the ten-cent loaves ranged from twenty-one and a half to twenty-six ounces. The present average of the five-cent loaf is about twelve ounces.

Careful experiments conducted in one of the modern bakeries about the middle of August, at which time an advanced price of ingredients prevailed and higher grades of flour was selling at \$8.90 per barrel, gives the cost of a well-made thirteen-ounce loaf of bread at .0294 cents, when baked, and to this might properly be added the labor or overhead costs, which would increase this amount, as near as could be determined, by about 33 per cent.

RECOMMENDATIONS

While the present laws are effective and the results obtained from their enforcement have been very beneficial and have met the approval of the people generally, the State office, profiting by the experiences of the past two years, desires to offer certain recommendations designed to facilitate the handling of various problems which arise, to strengthen the machinery of enforcement and provide a means of giving closer attention to detail and routine work.

First, it is recommended that the penalty sections be amended giving the justice courts concurrent jurisdiction, providing a system of graduated fines, with a minimum amount of \$10.00 and a maximum penalty of \$200.00.

Second, it is recommended that the "net weight" law, insofar as it appertains to the marking of the net contents of packages in terms of weight or measure, be placed under the supervision of the State Sealer, and further that the enforcement of all laws which relate to the inspection of weights and measures or the sale of commodities by weight or measure, be placed under the jurisdiction of this department.

Third, it is recommended that the State be divided into six weight and measure districts, instead of four, as at present.

The above recommendations are suggested in the interest of efficiency and to expedite the work of this office, which has greatly increased.

PROSECUTIONS

It has been the policy of the State office to endeavor to correct abuses of the law by a campaign of education, rather than by prosecutions, and complaints in the majority of cases have been filed by the sealers only after other means failed. Following is a list giving the number of complaints filed and the cause of action:

GENERAL STATEMENT

The foregoing report, while abbreviated to a certain extent, purposes to give a clear idea of what has been accomplished throughout the State, but it must be borne in mind that numerous services are performed which cannot properly be shown in a report of this nature without entering into the minutest detail, which appears to be unnecessary; as, for example, inspections of public markets, investigations of the method of sale of various commodities, examination of equipment for compliance with specifications, etc. Such subjects and many others have hardly been touched upon, yet a considerable portion of the time has been devoted to work of this character.

While the city of Portland operates under separate ordinance, the specifications and tolerances as promulgated by the State are in effect there, all tests of equipment being made in conformity therewith, and for this reason the reports of Portland have been incorporated into and made a part of this report. The State office, under authority of law, appointed Mr. E. D. Jones, city sealer of Portland, as a special deputy State sealer to assist in the enforcement of the State laws in that city, and this office appreciates the efficient and competent support rendered.

The State Office of Weights and Measures is also indebted to the various county courts and clerks throughout the State for their assistance and cooperation in their respective counties.

On the whole the results achieved have been very satisfactory; practically all equipment in commercial use has been tested; weighing and measuring apparatus is of better construction and more accurate than heretofore; faultily and improperly made equipment has been eliminated, and each county of the State has received greater benefit at less expense than would have been possible under the original act.

Respectfully submitted,

FRED G. BUCHTEL,
Deputy State Sealer.
